

Harrisonburg Center for Healing

Position description – Full Time Licensed Clinician

Values: Integrity, Empowerment, Safety & Trust, Relationships, Action Based Support. Specializing in providing front line care for complex trauma and PTSD, our work is led with heart and a driven commitment to providing immediate and responsive action-based support to our clients. Our practice highlights the best aspects of both group and private practice environments, while minimizing the most challenging. We eliminated the potential isolation that can occur within private practice through the creation of a community culture that provides as much support, care, and resources for each other as we do our clients. Emphasizing clinician autonomy, our clinicians select their own caseload size, who they want to see, the populations worked with and determine their own daily schedule. We provide administrative support to navigate the insurance verification, credentialing, billing, coding, and claims. In addition, working within our practice will include EMDR supervision and other educational opportunities.

We are currently seeking a licensed clinician with shared values and dedication to conduct initial diagnosis intakes and provide individual counseling sessions. However, additional professional opportunities are available based on clinician interest and professional experience. Our main goal is to create an environment where you can enjoy what you do and look forward to coming to work each day.

About Harrisonburg Center for Healing

We have a large new office space in Harrisonburg, Virginia and are excited about growing our staff. The staff at HCH has the necessary integrity and heart to treat trauma and stress at its core. We are honored to serve public safety professionals and their families as well as survivors of abuse. We understand how very important action-based support and treatment is to those working and living in high stress environments. We are specialists in complex trauma, PTSD, and moral injury.

Minimum Qualifications

Qualified applicants will be licensed in Virginia as a Licensed Professional Counselor or a Licensed Clinical Social Worker.

Desired Qualifications

In addition to the licensure requirements, we are looking for a colleague who shares our values, appreciates a good sense of humor, wants to be a part of a community, and has

a passion for providing high quality results driven mental health services. Applicant should be EMDR trained or willing to obtain training.

Compensation

Competitive compensation package
